

## HOLLIDAY PIGMENTS

### REACH

The following substances have been pre-registered by Holliday Pigments SA in accordance with the REACH regulations:-

Ultramarine Blue  
Ultramarine Violet  
Ultramarine Pink  
Manganese Violet

Registration is by substance, not individual grade.

We will continue to observe the requirements of the REACH regulations and would expect all of these substances to be registered at the appropriate time.

Ultramarine and Manganese Violet are among the safest pigments available and our products are very pure. We do not anticipate any restriction on the use of our products as a result of the REACH process.
